## Profile Summary

---

- Fresher in computer science(CSE) and a passion for leveraging technology to solve complex problems seeking a challenging position in the IT industry to contribute to the organization.
- Proficient in C++ with a solid understanding of data structures and algorithms.
- Comprehensive skillset in HTML,CSS,JavaScript, and applies a user centric approach to design.
- Good problem solving skills in Data Structure and Algorithms.

## Education

---

**Adamas University**, Masters in Computer Application Aug 2023 – present  
• CGPA: 8.25/10.0  
• **Coursework:** Computer Architecture, CS of Learning Algorithms, Data Structures and Algorithms

**Techno India University**, Bachelors in Computer Application June 2020 – May 2023  
• CGPA: 9.15/10.0  
• **Coursework:** Computer networks, Database Management, Theory of Computation

## Experience : Front-end Intern: Octanet Services Pvt. Ltd.

---

- Developed responsive and interactive web interfaces using **HTML, CSS, JavaScript**, and **React.js**.
- Collaborated with teams to implement design prototypes and optimize website performance.
- Enhanced skills in front-end development, debugging, and professional teamwork.

## Projects

---

### CodeExamify Dec 2022 - June 2023

- Role-based access for students, educators, and administrators using web. A fully integrated platform for providing end to end online computer based Examination services from candidate registration to result processing.
- Students can view and enroll in courses, while educators can create and manage course content. This project backend is built using MySQL ,PHP and LARAVEL
- Automatic grading for objective-type questions and manual evaluation for subjective assignments.

### Refokus Clone website June 2023 – Jan2024

- The **Refokus Clone Website** is a recreation of the original **Refokus** site, built to replicate its design, functionality, and user experience. This project demonstrates expertise in front-end and back-end development, showcasing attention to detail and the ability to implement complex UI/UX features.
- Leveraged **React.js** components for modular and reusable design, ensuring the flexibility to manage dynamic content. Created a test case generation tool that creates random XML docs from XML Schema.
- Integrated dummy data from MongoDB for showcasing features such as blog articles, portfolio projects, and client testimonials

### ReactJS based Functional Project - Movie Showcase App(VistaVue) June 2024 – Dec 2024

- The **Movie Showcase App(VistaVue)** is a ReactJS-based web application designed to provide users with an engaging platform to explore, search, and discover movies. The app integrates with **TMDb API** to fetch up-to-date movie data, including information about top-rated, trending, and upcoming movies.

## Technologies

---

**Languages:** C++, C, HTML,CSS, SQL, JavaScript

**Technologies:** React JS, Node JS, Mongo DB,UI/UX, REST APIs,MERN
